

"OstermanCron was an integral member of the team approach used to facilitate Clopay's move to Mason, OH. OstermanCron exhibited a professional approach and endurance in always being there to assist – not only with the newly purchased furniture but also helping coordinate the integration of Clopay's existing furniture."

Objective: Clopay was consolidating two locations into one combined location. New and existing furniture had to be merged into the new space.

Products: Kimball Office
Cetra and National Arrowood.

Why the furniture worked:

The Kimball Office and National furniture lines integrated with Clopay's existing furniture to create a seamless look.

Why OstermanCron?

Clopay and OstermanCron have a longstanding working relationship, which has been fueled by OstermanCron's focus on service.

Services: Wessels Workplace (OstermanCron's installation and move management partner) moved and reinstalled Clopay's existing furniture as well as office content.

The Urban Group LLC handled move coordination.

Design: Terry DeRees Associates, Inc.
