Showcased at OstermanCron:

The Huddle Room

Walk into OstermanCron's collaboration room and the brain-juice is flowing. Outfitted with a wall-mounted 42" diagonal LCD panel with 16:9 HDTV display capabilities from Sensory Technologies, this small conference room that seats five to seven people, is a hub for collaborating, thinking, presenting, and problem solving.

"We use this room whenever we need to gather a handful of people. The HDTV is the focal point where we can browse the internet for research or inspiration, or use it as an impressive platform for presenting to our clients or partners. The technology enhances our ability to collaborate, communicate and present."

- Keith Cron, Partner OstermanCron

sensorytechnologies®

A MARKEY'S VIDEO IMAGES COMPANY

with Sensory Technologies ReFresh™ Program

A Win-Win: Transforming Technology Ownership

Keeping up with evolving technologies is a constant challenge. With the ReFresh™ program from Sensory Technologies, you can save money and avoid capital expenditures, while remaining on the cutting edge of technology trends.

The ReFresh™ Technology Ownership Program

- Eliminates risk associated with equipment ownership by ReFreshing the technology every 36 months
- Eliminates post-warranty equipment maintenance costs
- Eliminates equipment disposal hassles and environmental compliance regulations
- Combines equipment, software, installation, Help Desk services and warranties into one convenient monthly payment
- Increases ROI by paying only 89% of the equipment cost
- ReFresh™ allows for upgraded technology solutions every 36 months to support increased productivity and organizational efficiencies
- Reduces capital expenditures and benefit from off-balance sheet treatment
- Simplifies technology budget planning process

GREEN NOTES

Videoconferencing can provide dramatic cost and environmental savings by eliminating unnecessary travel.
